Personal Statement

Aspiring software engineer with strong skills in C#, ASP.NET Core, and SQL Server. I enjoy leading student tech initiatives, organizing workshops, and working on projects that improve accessibility and collaboration. I'm eager to keep learning and contribute to impactful solutions.

EDUCATION

Bachelor of Science in Computer Science and Information Technology, Far Western University, Mahendranagar | 2021 - 2024

EXPERIENCE

- **Delta Student Ambassador & AWS Cloud Club Representative (workshops, mentoring juniors).**
- **Conference Technical Assistant (international events at Far Western University).**
- **Digital Repository project (ASP.NET Core, Learn & Earn program).**
- **Accounting Software project (selected and funded by UGC).**
- **NASA Space Apps Challenge participation (backend development, team coordination).**

PROJECTS

Far Western University Digital Repository

• Developed a digital document repository system using ASP.NET Core Razor Pages (.NET 9) and SQL Server, enabling secure document uploads, categorization, thumbnail previews, and role-based access control for efficient document management and collaboration.

• **Tech stack:** ASP.NET Core Razor Pages, C#, .NET 9, Entity Framework Core, SQL Server, HTML, CSS, JavaScript, ASP.NET Core Identity, Git.

Far Western Examination Management System

• Developed a comprehensive examination management system using Laravel 11 and MySQL, facilitating student registration, multi-board examination processes, college administration, and academic program management with policy-based authorization for secure access control.

• Tech stack: Laravel 11, PHP 8.2+, MySQL 8.0+, Blade Templates, Bootstrap, Laravel Breeze/Sanctum, Entity Framework, PHPUnit with Pest, Git.

SKILLS

Programming languages: C#, PHP, and Python.

Databases: Experience in MySQL, SQL and MongoDB.

Frameworks: Working experience in React JS, Laravel, Tailwind CSS, and Bootstrap.

Version Control Tools and IDEs: Git, GitHub, Visual Studio Code, Visual Studio.

Course Work: Database and Management System, Object-Oriented Programming, Software Development, and Data Structures & Algorithms.

HONORS AND ACHIEVEMENT

• **Delta Student Ambassador** and **AWS Cloud Club Representative**

• Successfully developed and implemented **Far Western University Digital Repository** under the competitive **Learn and Earn Program**, improving academic research accessibility for Bachelor's, Master's, and PhD students

• Awarded a **Startup grant by University Grants Commission (UGC)** of Nepal for innovative IT solutions.
